

NOTICE

Modification of rubber boot material

We wish to inform you that as of **July 1st, 2015**, the rubber boot material will be modified due to improvement of environmental performance resistance to focus primarily on resistance to coolant.

It will be applied for partial High-accuracy MT-touch switch series and the prices will remain unchanged.

■ **Timing of implementation**

For Purchase order from **July 1st, 2015** onward

■ **Improved point**

The rubber boot material is changed from **special coated rubber** into **Fluorine rubber**.

The color of the rubber boot is changed from creamy white into black.

■ **Target products**

【High-accuracy MT-touch switch series】

- P10DA • P11GDB • P21EDB
- P10DB • P11GMB • P21EMB
- P10SA • P11DDB
- P10SB • P11DMB
- P10DLB • P11EDB
- P10DHLTB • P11EMB
- P10DHA • P12DA
- P10DHB • P12DB
- P10SHA • P12DLB
- P10SHB

【CS-touch switch series】

- CSCHP
